My journey in software development has equipped me with proficiency across the entire stack, from front-end technologies like HTML, CSS, and JavaScript, React JS to back-end frameworks such as Node.js, Express.

WORK EXPERIENCE

Eziline Software House

As a React.js Intern at Eziline Software House, I specialized in enhancing front-end functionality. I crafted reusable components, managed state efficiently, and integrated React.js with backend APIs. My role involved troubleshooting and ensuring seamless integration between front-end modules. This experience deepened my understanding of React.js development principles while contributing to team goals.
